

Contents

I. Introduction 1

- Background 1
- Scope of the study 2
- Basic approach 3
- Plan of the study 4

II. Structure of Domestic Trade Taxes and Customs Duties 5

- A brief overview 5
- Customs duties 7
- Union excise duties 9
- Sales tax 11
- Octroi 14

III. Methodology for Estimating Tax Discrimination 16

- Three important steps 16
- Identification of factors leading to tax discrimination 16
- Choice of specific commodities 20
- Two alternative ways of estimating net tax advantage 20
 - Calculation of effective rates of protection 20
 - Calculation of composite duty rates on imports and domestic products 23

IV. Empirical Findings 28

- The data 28
- Effective rates of protection 30
 - Unmanufactured products 31
 - Manufactured products 33
 - Relative contribution of different domestic taxes to ERP 36
 - Services 38
 - General observations 38
- Composite duty rates for selected low duty products 38
 - Products with low customs duty 39
 - Calculation of composite duty rates 40
 - Tax discrimination because of customs duties and domestic trade taxes 40
 - Implications of imposing a minimum customs duty 43
 - Concluding remarks 44

V. Summary of Findings and Recommendations 76

- General findings 77
- Important specific findings and remarks 77
- Recommendations 78
 - Customs duty 78
 - Domestic trade taxes 79
 - Non-tax factors 80

A Select Bibliography 81

Annexures

- 1 Goods subject to Additional Excise Duty in lieu of Sales Tax 84
- 2 Declared Goods under CST Act 96
- 3 Commodity-wise Rates of Sales Tax in the States:
Provision for 1997-98 101
- 4 Octroi Rates in Selected Municipal Corporations In Maharashtra :
1998-99 106
- 5 List of Articles Exempt of Octroi in Greater Mumbai Corporation 117

Tables and Boxes

- III.1 Major Domestic Trade Taxes Applicable to Domestic Products 18
- III.2 Taxes/Duties Applicable to Imported Products 19
- III.3 Four Duty Regimes for Imports 25

- Box IV.1 Some of the Products subject to Lower Rates of CVD than the corresponding Rates of UED 41

- IV.1 Duty Rates and their Contribution to Effective Rates of Protection for Sixty Broad Groups of Commodities 45
- IV.2 Tax Rates for Items subject to Effective Rate of Basic Customs Duty not Exceeding 10 Per cent and Composite Duty Rate on Imports and Domestic Products 50
- IV.3 Number of Commodities with Negative, Nil and Positive Values of Excess of Composite Duty Rate on Imports (based on excess of customs duty rate on imports due to customs duties and domestic trade taxes) 73
- IV.4 Number of Commodities with Negative, Nil and Positive Values of Excess of Composite Duty Rate on Imports (based on excess of customs duty rate on imports due to customs duties and domestic trade taxes with minimum BCD plus SD as 5%) 74
- IV.5 Number of Commodities with Negative, Nil and Positive Values of Excess of Composite Duty Rate on Imports (based on excess of customs duty rate on imports due to customs duties and domestic trade taxes with minimum BCD plus SD as 10%) 75
